

Parent Voice – Mission GMB69ILD: A Space Art Installation

The children's artwork (in the many forms and mediums they used) have really done Grace Mary proud. Below are some comments and feedback from parents from this event.

- 'It was really lovely to see all the work displayed in a lovely way like that today. My child loved telling us each year groups planet theme name and showing us the music on the iPads. Also seeing my child take part in the dance was amazing, we are so proud of him. You have all put such hard work into today yet again and the organisation with involving the parents was excellent. Thank you so much yet again for this opportunity. It's so lovely to be involved in the children's learning.'*

It is nice to see what she and the other children have come together to produce, and I think it's a nice way for children to show parents their work and to also feel a part of something bigger. The children have obviously enjoyed everything they have been doing and learnt a great deal at the same time. They were so proud and enthusiastic and couldn't wait to show their families around. The work was of a very high standard and showed a great range of techniques. Really liked the dances performed by all the year groups. Well done to all the staff and children you should be so proud thank you for sharing it with us.'
