I really enjoyed the maths workshop and the way the teacher explained it. It was really good how you got to see the children doing all the different activities. I really enjoyed it. Special thanks to Mrs Cairns you are an incredible teacher and an asset to the school!! Thankyou!!

This workshop was really helpful. I do have maths anxiety, but wasn't aware until it was highlighted today and now that I am conscious of it and know what things to avoid.

Thankyou!!

Brilliant exercise, lovely to do activities with the children, very helpful for us parents to learn more

Teachers are friendly and helpful

I would definitely attend any future activities

I would like to ~~ten~~ thank his teacher for all the good work. I can tell he loves it at school, even asks me random questions at home like "Mommy did you know $2+2=4$?" [redacted] said the teacher is kind like a nurse. I really enjoyed the Maths workshop.
Thank you.

Very helpful & insightful workshop into ~~what~~ what the children will be learning and how. We enjoyed the interactive games which were very useful and can be transferred to home life.
