

Dear Parents and Carers,

We are excited to let you know that we will be using ClassDojo this year as a way to recognise and celebrate the positive choices our children make. At our school, we place a strong emphasis on our core values, and ClassDojo will allow us to acknowledge children who consistently demonstrate these values in their learning and behaviour.

When your child earns a Values Token, this will be recorded on ClassDojo. This means you will be able to see when your child has been recognised and celebrate their achievements together at home. We encourage you to ask your child about the tokens they have earned and talk with them about how they are showing our values both in and out of school. Please be advised, the app will NOT be a way to communicate with your child's class teacher.

To get started, you will need to download the free ClassDojo app. You will receive an email from ClassDojo explaining how to do this. Please note, while the app may offer a paid version, there are no additional benefits to this, so we recommend only downloading the free version.

We are really looking forward to working in partnership with you to support and celebrate the children's successes through ClassDojo.

Thank you for your continued support.

Warm regards,

Mr Cains

Deputy Head
