

Dear Parents

In the Sunshine Hub, we believe that developing the children's communication, life skills and social skills is very important and ensure dedicated time is spent towards helping the children make progress in these areas. As part of this, we take the children out in the school minibus. This can include a wide range of purposes, including: visiting areas of local interest such as parks, shops, soft play; looking around the local area; learning about routes and directions; looking for road signs, Christmas decorations, signs of Autumn/Spring etc. These community trips can help develop a range of skills as well as ensuring your child plays an active part of their community and we find children really enjoy being on the minibus and going out and about.

This term the community visits will take place on Monday afternoons. Due to spaces on the minibus we won't be able to take every child every week but will take small groups of children in rotation. To cover costs of the minibus trips, we ask for £30 to cover the academic year (this can be paid £10 each term if this is preferable). This can be paid on ParentPay.

Thank you for your continued support.

Miss Duggan and the Sunshine Team
